INDEPENDENT AUDITOR'S REVIEW REPORT

To: G-Shank ENTERPRISE CO., LTD.

Introduction

We have reviewed the accompanying consolidated balance sheets of G-Shank Enterprise Co., Ltd. and its subsidiaries as of June 30, 2021 and 2020, and the related consolidated statements of comprehensive income for the three-month and six-month ended June 30, 2021 and 2020, as well as the consolidated statements of changes in equity and of cash flows for the six-month ended June 30, 2021 and 2020, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews and the reports of other independent auditors.

Scope of Review

We conducted our reviews in accordance with the Statement of Auditing Standards No. 65, "Review of Financial Information Performed by the Independent Auditor of the Entity" in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As stated in Note 4.(2) of the consolidated financial statements, the same period financial statements of the insignificant subsidiaries included in the aforementioned consolidated financial statements have not been reviewed by the independent auditors. The total assets were NT\$3,348,478 thousand and NT\$3,115,974 thousand, accounted for 39.53% and 40.19% of the total consolidated assets as of June 30, 2021 and 2020, respectively. The total liabilities were NT\$528,411 thousand and NT\$458,891 thousand, accounted for 17.70% and 16.02% of total consolidated liabilities, respectively. The total consolidated profits and losses were NT\$88,146 thousand, NT\$58,234 thousand and NT\$144,060 thousand, NT\$2,503 thousand, constituting 59.82%, 44.23% and 55.98%, (4.30)% of the consolidated total comprehensive income for the three-month and six-month periods then ended June 30, 2021 and 2020, respectively. As stated in Note 6.(9) of the consolidated financial statements, the investment book amount under the equity method on the consolidated

balance sheet of G-Shank Enterprise Co., Ltd. and its subsidiaries were NT\$151,836 thousand and NT\$163,128 thousand, accounted for 1.79% and 2.10% of the total consolidated assets, respectively, as of June 30, 2021 and 2020, respectively. The amount of profit (loss) from the affiliated enterprise under the equity method was NT\$1,258 thousand, NT\$(3,388) thousand and NT\$1,357 thousand, NT\$(6,553) thousand, accounted for 0.85%, (2.57%) and 0.53% 11.25% of the total consolidated profits and losses for the period of the three-month and six-month periods then ended June 30, 2021 and 2020, respectively, which were calculated according to the same period financial statements of the invested companies that have not been reviewed by the independent auditors. In addition, the relevant information of the aforementioned subsidiaries as disclosed in Note 13 to the consolidated financial statements and the invested companies under the equity method have not been reviewed by the independent auditors.

Conclusion

In our conclusion, except for the financial statements of the insignificant subsidiaries and the invested companies under the equity method as stated in the “Foundation for a qualified conclusion” paragraph and the relevant information disclosed in Note 13 to the consolidated financial statements may have affected the consolidated financial statements if they have been reviewed by the independent auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of G-Shank Enterprise Co., Ltd. as at June 30, 2021 and 2020, and of its consolidated financial performance for the three-month and six-month periods then ended, and of its consolidated cash flows for the six-month ended June 30, 2021 and 2020, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed by the Financial Supervisory Commission.

4. Summary of major accounting policies

The major accounting policies adopted for the preparation of the consolidated financial statements are summarized as follows, unless otherwise provided, these accounting policies are uniformly applicable to all reporting periods :

(1) Financial report preparation and measurement basis

A. Statement of Compliance

These consolidated financial statements are prepared in conformity with the “Regulations Governing the Preparation of Financial Reports by Securities Firms” (referred to as the “Regulations” hereinafter) and International Accounting Standards

(IAS) No. 34 “Interim Financial Reporting” that was recognized and issued with effect by the Financial Supervisory Commission.

B. Measurement basis

Except for the financial instruments measured at fair value, this consolidated financial report is prepared on the basis of historical cost. For assets, the historical cost refers to the cash, cash equivalents, or the fair value of other considerations paid to obtain assets. For liabilities, the historical cost refers to the amount received when assuming obligations or the amount expected to be paid for liquidating liabilities.

C. Functional and reporting currency

The functional currency of each business entity of the Group is the currency used in the main economic environment where it operates. This consolidated financial report is prepared in New Taiwan Dollar that is the functional currency of the company. All financial information prepared in New Taiwan Dollar is in the unit of “NT\$ Thousand,” unless otherwise specified.

(2) The preparation scope of consolidated financial report

The company controls the invested company when the company receives variable remuneration from the invested company or is entitled to receiving such variable remuneration; also, the company can influence such remuneration through its power over the invested company. The company controls the invested company only when meeting the following three control elements:

- A. The power over the invested company, that is, with the vested power to lead the relevant activities of the invested company;
- B. The risk exposure or rights to the variable remuneration resulted from the investment in the invested company; and
- C. Exercise the power over the invested company to affect the company’s remuneration.

If there are facts and circumstances indicating that one or more of the aforementioned three control factors has changed, the company will reevaluate whether the control over the invested company is intact.

(3) Principles for the preparation of consolidated financial report

A. The consolidated financial report is prepared in accordance with International Financial Reporting Standards No. 10 “Consolidated Financial Statements.” The assets and liabilities, equity, income, expenses and losses, and cash flows related to the transactions between business entities of the Group were written-off at the time of preparing the consolidated financial report; also, similar transactions and events under similar circumstances were handled in accordance with the uniform accounting policies. The consolidated financial report included income and expenses of the subsidiary incurred from the date the control was obtained to the date the control terminated. The comprehensive profit and loss are attributable to the shareholders’ equity and non-controlling interests of the company, even if it causes losses to the non-controlling interests eventually.

B. Transactions between shareholders of the company and non-controlling interests

(a) Without resulting in “loss of control”

It is handled as an equity transaction. The difference between the fair value of any consideration paid for the purchase of non-controlling interests and the net book value of the relevant assets acquired from the subsidiary is recognized as equity and is attributable to the shareholders of the company. The profit or loss from the disposal of non-controlling interests is also recognized in equity.

(b) Resulting in “loss of control”

If a change in the ownership of the subsidiary’s equity results in the loss of control, the assets, liabilities, non-controlling interests, and all other equity constituents related to the former subsidiary are delisted on the date of loss of control; also, the difference among the said delisted amount and the fair value of the considerations collected, the share distribution for the equity transaction conducted with the former subsidiary, and the fair value of any retained investment are recognized in profit and loss. In addition, any remaining investment in the former subsidiary is measured at the fair value on the date of “loss of control,” and it is regarded as the fair value of the originally recognized financial asset, or as the cost of the original investment in an affiliated enterprise or a joint venture.

(4) Employee benefits - retirement benefits

A. All full-time employees of the company are entitled to the retirement plan. The entire employee pension fund is deposited in the pension fund account and managed by the Labor Retirement Reserve Committee. The aforementioned pension fund is deposited in the name of the Labor Retirement Reserve Committee that is completely separated from

the company; therefore, it is not included in the aforementioned consolidated financial report. The retirement plan for employees of foreign subsidiaries is handled in accordance with local law and regulations.

- B. For a defined contribution plan, the company's monthly employee pension contribution rate shall not be less than 6% of the employee's monthly salary, and the contributed amount is recognized as the current expense. Foreign subsidiaries are to appropriate a certain percentage of the salary as pension according to the local law; also, it is recognized as a current expense.
- C. For a defined benefit plan, the actuarial pension amount should be appropriated on the annual reporting date according to the Projected Unit Credit Method. The re-measured amount is included in other comprehensive profits and losses when it occurs; also, it is immediately recognized in the retained earnings. The pension cost in the interim period is calculated according to the pension cost rate actuarially calculated at the end of the previous year for the period from the beginning to the end of the year; also, the major market fluctuations, major reductions, settlements, or other significant non-reoccurring events after the end of the year should be adjusted and disclosed accordingly.

(5) Income tax

- A. Income tax expenses include current and deferred income taxes. Except for those related to business mergers, directly recognized in equity, or other comprehensive profit and loss, current income tax and deferred income tax expenses are recognized in profit and loss.
- B. Current income tax expenses refer to the estimated income tax payable or tax refund receivable calculated on the taxable income or loss of the current year at the tax rate that has been legislated or substantively legislated on the reporting date, including any adjustment made to the income tax payable or refundable of the previous year.
- C. Deferred income tax expenses are calculated and recognized on the temporary difference between the tax base of assets and liabilities and the book amounts reported.
- D. Deferred income tax assets and liabilities are measured at the tax rate applicable when the temporary difference is expected to reverse that has been legislated or substantively legislated on the reporting date. Deferred income tax assets and liabilities can only be applied to offset current income tax assets and liabilities lawfully; also, it is limited to the same taxpayer and the same levying tax authority; or it can be offset by different taxpayers when the intention is to have the net current income tax liabilities and assets offset, or the income tax liabilities and assets will be realized at the same time.

- E. The outstanding taxable losses, income tax credit, and deductible temporary differences are recognized as deferred income tax assets to the extent of the potential taxable income that occurred in the future. Also, the deferred income tax assets are evaluated on each reporting day and adjusted down to the extent of the relevant tax benefit unlikely to be realized.
- F. For the domestic subsidiaries of the Group, for the additionally levied business income tax on the unappropriated earnings of the year, the income tax expense of the unappropriated earnings is recognized according to the actual earnings distribution that is resolved in the shareholders meeting of the following year.
- G. The income tax expense of the interim reporting period is measured according to the best estimated annual effective tax rate by the management, that is, apply the estimated annual average effective tax rate to the net income before tax in the interim reporting period. For any change in the legislated tax rate that occurred in the interim reporting period, the relevant income tax effect is recognized in a lump sum during the said interim reporting period.

(6) Other significant accounting policies

The other significant accounting policies adopted in preparing this consolidated financial report are the same as those in Note 4 of the 2020 consolidated financial report. Please refer to the Group's 2020 consolidated financial report for details.

5. Main causes of uncertainty to material accounting judgments, estimates and assumptions

The management must make judgments, estimations, and assumptions when preparing the Group's consolidated financial report, which will affect the reported amount of income, expenses, assets, and liabilities. The uncertainties of these material assumptions and estimations may cause significant adjustments to the book amount of assets and liabilities in the future, that is, actual results may differ from estimates.

The significant judgments made by the management of the Group while preparing this consolidated financial report, as well as the main causes of uncertainty in assumptions and estimations about the future are the same as those in Note 5 of the 2020 consolidated financial report. Please refer to the Group's 2020 consolidated financial report for details.

Total	<u>\$435,014</u>	<u>\$432,784</u>	<u>\$428,951</u>

According to the Company Act, the company shall apply the additional paid-in capital to make up for losses only. However, if the company has no loss, the stock premium and all or part of the donation received may be used to distribute new shares or cash proportionally to the shareholders' original shareholding ratio. In addition, the company may apply the additional paid-in capital to supplement the capital loss only when there is an insufficient reserve.

(19) Legal reserve

According to the Company Act, the company after having all taxes paid and ready for earnings distribution shall first appropriate 10% legal reserve and continue to appropriate until the total legal reserve amount equals total capital. The legal reserve can be applied to make up for the company's losses; also, if the company has no loss, the amount of the legal reserve exceeding 25% of the paid-in capital can be used to distribute new shares or cash proportionally to the shareholders' original shareholding ratio.

(20) Special reserve

According to the provision of Jin-Guan-Chen-Far-Tzi No. 1010012865 Order, the relevant regulations for the comprehensiveness and stability of the company's financial structure are as follows:

- A. When adopting IFRS for the first time, for the unrealized revaluation increments and cumulative conversion adjustments (benefits) under the shareholders' equity that is transferred to retained earnings due to the adoption of FIRS 1 "Exemption," a special reserve for the same amount should be appropriated. However, when there are insufficient retained earnings for appropriation on the transfer date due to the first-time adoption of IFRS, it is acceptable to appropriate only the amount of retained earnings increased due to the first-time adoption of IFRS. When the company subsequently uses, disposes, or reclassifies the related assets, an amount proportionally to the originally appropriated special reserve can be reversed for earnings distribution.
- B. After starting to prepare financial reports according to the IFRS, when distributing the distributable earnings, a special reserve for an amount equivalent to the net amount debited to other shareholders' equity of the year (such as the cumulative balance amount of the exchange differs from the conversion of financial statements of foreign operating institutions, the unrealized profit and loss of the financial assets measured at fair value through other comprehensive profit and loss, the profit and loss of hedging instruments, and revaluation increments) should be appropriated from the current profit and loss and the unappropriated earnings of the previous period. For the cumulative amount debited to other shareholders' equity in the previous period, a special reserve for the same amount should be appropriated from the unappropriated earnings of the previous year, which may not be distributed. However, if the company has a special reserve appropriated in accordance with the aforementioned provision, an additional special reserve for an amount equivalent to the difference between the appropriated amount and the net amount debited to other equity should be appropriated. When the amount debited to other shareholders' equity is reversed subsequently, the reversed amount can be applied for earnings distribution.

(21) Earnings distribution and dividend policy

- A. According to the company's Articles of Incorporation, the annual earnings, if any, should be applied to pay income tax and make up for the losses of the previous years; also, appropriate 10% legal reserve from the remaining balance, if any. In addition, appropriate or reverse a certain amount of special reserve according to the regulations of the competent authority. Then, for the balance amount, if any, and the unappropriated earnings of the previous year, except for the retained amount, the board of directors shall draft an earnings distribution plan for the resolutions of the shareholders meeting.

(Review only without following generally accepted auditing standards)

(Unit amount in NT\$ Thousand, unless otherwise specified)

- B. The company's dividend policy: the company's current industrial development is growing and will be expanded to support the business development. The earnings distribution shall be handled in accordance with the company's Articles of Incorporation. However, the shareholders' dividends distributed in the current year shall include not more than 50% of the stock dividend and must be more than 50% of the cash.
- C. The aforementioned earnings distribution proposal issued by the board of directors or resolved in the shareholders' meeting is as follows:

	2020(Note)	2019
Legal reserve	\$28,424	\$30,591
Special reserve	-	-

The company was authorized by the Securities and Futures Bureau of the Financial Supervisory Commission to issue 500,000 units of employee stock warrants on January 13, 2015 and August 22, 2018, respectively. One stock warrant is entitled to subscribe to 10 common stock shares of the company. New shares will be issued for the stock option exercised by employees and the subscription price is the company's common stock closing price on the issuance day. The stock warrant holders can exercise a certain percentage of the stock warrant after 2-year from the issuance date (according to the regulations, the exercisable subscription amount is 40% of the amount available for subscription in each stock warrant issued after 2-year from the issuance date, 60% after 3-year from the issuance date, 80% after 4-year from the issuance date, and 100% after 5 years from the issuance date). The duration of the stock warrant is for seven years. The unexercised stock options after 7 years shall be deemed as being waived, and the subscribers cannot claim their rights to subscribe.

August 12, 2019	210,000	200,000	-	21.80

Note: The company has the subscription price adjusted when there is a change in common stock share or cash dividend is distributed for common stock shares in accordance with the “Regulations Governing the Issuance of Employee Stock Warrant and Stock Subscription.” The stock subscription price per share after adjustment is disclosed as of June 30, 2021.

A. The company adopts the Black-Scholes stock options model to assess the fair value of the employee stock warrant issued each year. The remuneration cost accrued were NT\$1,106 thousand, NT\$2,099 thousand, NT\$2,207 thousand, and NT\$4,186 thousand, for the three-month and six-month periods ended June 30, 2021 and 2020, respectively. The input values of the stock option pricing model are as follows:

	2018 Stock option plan	2018 Stock option plan	2014 Stock option plan	2014 Stock option plan
Expected dividend ratio	-%	-%	-%	-%
Expected price fluctuation ratio	18.99%~20.95%	21.38%~22.07%	22.64%~25.43%	22.80%~27.68%
Risk-free interest rate	0.554%~0.582%	0.700%~0.758%	0.663%~0.831%	0.976%~1.203%
Expected duration	4.5~6 years	4.5~6 years	4.5~6 years	4.5~6 years

The assumption of the expected price fluctuation ratio is measured according to the impact of the annual dividend distribution in the past on stock price, and the expected stock price fluctuations in the future period. The stock option duration is the employee exercising stock option period that is deducted from the historical data and current expectation, which may not necessarily match the actual result or actual implementation.

11. Material post events

For legal reserve appropriated and distribution of cash dividends to shareholders resolved by the general shareholders meeting held on July 16, 2021, please refer to Note 6.(21) of Consolidated Financial Reports.

12. Others

(1) Capital management

- A. The Group's capital management is aimed to ensure the Group's ongoing concern, to continue to provide remuneration to shareholders and benefits to stakeholders, and to maintain the best capital structure in order to reduce capital costs and to set the price of products or services according to the relative risk levels in order to provide shareholders with sufficient remuneration.

- B. The Group bases on the risk ratio to set the capital stock; also, manage and adjust the capital structure appropriately in accordance with the changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the dividends paid to shareholders, refund shareholders by de-capitalization, and issue new shares or sell assets to settle liabilities.

(2) Financial risk management

- A. The Group's main financial instruments include cash and cash equivalents, financial assets measured at fair value through profit and loss, financial assets measured at fair value through other comprehensive profit and loss, financial assets measured at amortized cost, other financial assets (time deposits), short-term loans, long-term loans, lease liabilities, receivables and payables arising from operating activities, etc., also, adjust operating fund needs through such financial instruments. Therefore, the Group's operations are subject to various financial risks, including market risk (including exchange rate risk, interest rate risk, and other price risks), credit risk, and liquidity risk. The purpose of the Group's overall financial risk management is to reduce the potential adverse effects of the Group's exposure to financial risks due to changes in the financial market.

- B. The Finance Department of the Group is responsible for identifying, evaluating, and hedging financial risks through close contact with the business units of the Group, planning and coordinating the access to domestic and international financial markets, and manages the Group's operation related financial risks by analyzing the degree of risk exposure; also, the Group's board of directors is responsible for supervision and management. In addition, the Group uses derivative financial instruments to hedge risk exposure at an appropriate time to reduce the impact of financial risks. The Group has the procedures for derivative financial instrument transactions stipulated that have been approved by the board of directors and the shareholders meeting. The said procedures include trade principles and policies, risk management measures, internal audit systems, regular evaluation methods, and handling of nonconformities, of which, the risk management includes credit, market prices, liquidity, cash flow, operations, law, etc.
- C. The main risks of the Group's financial instruments are as follows:

(A) Market risk

The main market risks of the Group are exchange rate risks arising from operating activities, such as sales or purchases denominated in non-functional currencies, and interest rate risks or price risks arising from financial instruments transactions.

a. Exchange rate risk

- (a) The Group evaluates and analyzes the overall exchange rate risk. When the listed assets and liabilities and future business transactions are exposed to significant exchange rate risk, within the permitted range of the policy, manage risk through forwarding exchange contract. In addition, the Group's net investment in foreign operating institutions is a strategic investment; therefore, no hedging is performed.

The Group's financial assets and liabilities denominated in non-functional currencies with significant risk exposure of exchange rate fluctuations on the reporting date, and sensitivity analysis information are as follows (the functional currency of the company and some subsidiaries is "NTD," and the functional currency of some subsidiaries is RMB, THB, USD, MYR, IDR, and JPY); sensitivity analysis is regarding the impact of the Group's financial assets and liabilities denominated in non-functional currencies appreciated by 5% against a respective foreign currency that is the functional currency of each overseas subsidiary on the net income before tax or equity on the reporting date; also, when it depreciated by 5%, it will affect the net income before tax and equity reversely:

(b) In addition, the SWAP contracts held by the Group are a financial hedging operation intended to hedge exchange rate risk arising from the change (mainly including sales and purchases denominated in non-functional currencies, such as USD) in the exchange rate of foreign claims. Regarding the aforementioned SWAP contracts, the profit and loss arising from changes in the exchange rate will generally offset the profit and loss of the hedged project, so there is no significant market risk. As for the aforementioned hedged project, the net position of foreign currency claims that are not effectively hedged is linked to the market risk of changes in exchange rates, of which, the depreciation or appreciation of USD, RMB, MYR, or JPY will result in the risk of exchange profit or loss.

b. Interest rate risk

The Group's interest rate risks include the fair value interest rate risk of the financial instruments with fixed interest rate and the cash flow interest rate risk of financial instruments with floating interest rate. The financial instruments with fixed interest rate refer to the company's time deposits, some financial assets-current measured at fair value through profit and loss, financial assets measured at amortized cost, some other financial assets-current and some bank loans; the financial instruments with floating rate refer to savings deposits, some other financial assets-current, some other noncurrent assets-others, and some bank loans. The Group has interest rate risk evaluated and analyzed on a dynamic basis and controlled the interest rate risk exposure by maintaining an appropriate combination of fixed and floating interest rates. The Group expects no significant interest rate risk.

(a) The Group's financial assets and liabilities with fixed and floating interest rates

	<u>June 30, 2021</u>	<u>December 31, 2020</u>	<u>June 30, 2020</u>

Net amount	<u>\$916,688</u>	<u>\$793,835</u>	<u>\$695,780</u>

(b) Sensitivity Analysis

For the Group's financial assets and liabilities with a floating interest rate, if the interest rate of market deposits or loans increased by 0.5% on the reporting date, assuming that it is held for an accounting quarter and all other factors are given, it would cause the Group's net income (loss) before tax increased by NT\$2,292 thousand and NT\$1,739 thousand for the six-month periods ended June 30, 2021 and 2020, respectively.

(c) Other price risks

The Group's beneficiary certificates and equity securities, such as financial assets measured at fair value through profit and loss and financial assets measured at fair value through other comprehensive profit and loss, are with price risk resulted. The Group manages the price risk of beneficiary certificates and equity securities by holding investment portfolios with different risks.

Sensitivity Analysis

For the Group's financial assets measured at fair value through profit and loss and financial assets measured at fair value through other comprehensive profit and loss, the impact of the beneficiary certificates and equity securities with a 5% price increase on the net income before tax or equity on the reporting date is as follows; also, the beneficiary certificates and equity securities with a 5% price decrease will affect the net income before tax or equity reversely:

	<u>June 30, 2021</u>	<u>Decdmbber 31, 2020</u>	<u>June 30, 2020</u>
Increase in net income before tax			
Financial assets measured at fair value through profit and loss	<u>\$66,010</u>	<u>\$55,015</u>	<u>\$44,336</u>
Increase in equity			
Financial assets measured at fair value through other comprehensive profit and loss	<u>\$10,208</u>	<u>\$10,268</u>	<u>\$7,948</u>

(B) Credit risk

- a. The Group's credit risk is mainly the potential impact of the counterparty or other parties' failure in performing financial assets contracts, which includes the concentration of credit risks, constituents, contract amounts, and other receivables of the financial assets transactions of the Group. In order to reduce credit risk, the Group has dealt with all well-known domestic and foreign financial or securities institutions for bank deposits, financial assets measured at fair value through profit and loss, financial assets measured at amortized cost, some other financial assets, which are with low credit risk. For receivables, the Group continues to evaluate the financial status of the counterparties, historical experience, and other factors to adjust the trade amount and trade method of individual customers appropriately in order to improve the Group's credit-granting quality.

- b. The Group evaluates and analyzes the overdue or impairment of financial assets on the balance sheet date. The Group's credit risk exposure amount is as follows:

	<u>June 30, 2021</u>	<u>December 31, 2020</u>	<u>June 30, 2020</u>
Credit risk exposure amount			
Allowance for losses-measured by the expected credit losses amount for 12-month	\$-	\$-	\$-

Total	<u>\$30,673</u>	<u>\$32,248</u>	<u>\$31,298</u>

The aforementioned credit risk exposure amounts are all from the recovery of accounts receivable. The Group has continuously evaluated the losses that affect the estimated future cash flow of accounts receivable with appropriate allowance accounts appropriated. Therefore, the book amount of accounts receivable is with credit risk properly considered and reflected. In addition, the Group does not hold collateral for the impairment of financial assets that is with an allowance account appropriated.

- c. The expected credit loss of the Group's notes and accounts receivable as of June 30, 2021, December 31, 2020 and June 30, 2020 is analyzed as follows:

(C) Liquidity risk

The Group manages and maintains sufficient cash and cash equivalents to support all contractual obligations for business operations and to minimize the impact of cash flow fluctuations. Bank loans are an important source of liquidity to the Group. The management ensures the repeating bank loans through capital structure management, monitoring the use of bank credit line, and complying with loan contract terms to reduce liquidity risk. The Group's stock investment under the financial assets measured at fair value through other comprehensive profit and loss is exposed to liquidity risk due to lack of an active market. In addition, the exchange rate of the Group's SWAP contract has been determined; therefore, there is no significant cash flow risk.

Derivative financial liabilities: NoneD. Fair value of financial instruments

The book amount of the Group's financial instruments is an amount reasonably close to the fair value.

(A) The methods adopted for the fair value of financial instruments and the assumptions adopted for the use of evaluation techniques

- a. The fair value of short-term financial instruments is estimated according to the book value on the balance sheet. Such financial instruments are with a short maturity date; also, the present value of future cash flows discounted at the market interest rate is close to the book amount; therefore, the book amount should be a reasonable basis for estimating the fair value. This method is applied to cash and cash equivalents, net notes receivable, net accounts receivable (including related parties), other receivables (including related parties), short-term loans, accounts payable (including related parties), and other payables (including related parties).
- b. The financial assets measured at fair value through profit and loss are with a market price available for reference; therefore, the said market price is the fair value.
- c. Financial assets measured at fair value through other comprehensive profit and loss are equity instrument investments without market price available for reference; therefore, the fair value is estimated according to the Market Approach. The company has the fair value estimated according to the prices derived from the market transactions of the same or comparable equity instruments and other relevant information.

- d. The fair value of other financial assets and other noncurrent assets-restricted assets is estimated according to the book amount, since the present value of future cash collected and discounted at the market interest rate is close to the book amount; therefore, the book amount should be a reasonable basis for estimating the fair value.
- e. The financial assets measured at amortized cost refer to the debt instrument investments that do not have market price available for reference, but with a fixed or decidable amount to be collected. The Group adopts the evaluation method of the cash flow model for estimation.
- f. The evaluation of derivative financial instruments is based on the evaluation models that are widely accepted in the market, such as, discount method and option pricing model.
- g. Lease liabilities are discounted at the Group's increment loan interest rate on the unpaid lease expense on the lease starting day and then measured at amortized cost of the effective interest method subsequently. The book amount of the lease liabilities is an amount reasonably close to the fair value.
- h. The Group's long-term loans are based on floating interest rates with the fair value estimated according to the book amount on the balance sheet, which has been adjusted with reference to market conditions. Therefore, the company's loan interest rate is close to the market interest rate.

(B) Classification of fair value measurement

All assets and liabilities measured or disclosed at the fair value are classified to the respective fair value level according to the lowest level input value critical to the overall fair value measurement. The input values for each level are as follows:

Level 1: The market price (unadjusted) available for the same asset or liability on the measurement date;

Level 2: Direct or indirect observable input values of assets or liabilities, except for those quotations in Level 1;

Level 3: Unobservable input value of assets or liabilities;

The assets and liabilities that were originally measured at fair value on a repetitive basis and recognized on the balance sheet should be reassessed for classification at the end of each reporting period to determine whether there is a swift between the levels of the fair value hierarchy.

Note 1: Business transactions conducted between the parent company and subsidiaries should be noted in the “No.” column as follows:

- (1) Fill in “0” for the parent company;
- (2) The subsidiaries are numbered sequentially starting from the Arabic number “1” by the company type.

Note 2: The “relationship with the trading companies” includes three types (The same transaction between parent company and subsidiary or between two subsidiaries needs not to be disclosed repeatedly, for example, if the parent company has already disclosed the transaction conducted with the subsidiary, the subsidiary does not need to have it disclosed again. If one of the two subsidiaries has already disclosed the transaction conducted, the other subsidiary does not need to have it disclosed again), which should be marked as follows:

- (1) The parent company to the consolidated subsidiary;
- (2) Consolidate subsidiary to parent company;
- (3) Consolidated subsidiary to consolidated subsidiary;

Note 3: For the ratio of the transaction amount to the consolidated total operating income or total assets, if it is an asset or liability item, it is calculated for the ratio of the ending balance amount to the consolidated total assets; if it is a profit and loss item, it is calculated for the ratio of the interim cumulative amount to total consolidated operating income.

Note 4: The products sold are mostly equipment, tools, and materials used for production with the price negotiated by both parties by adding a percentage to the cost or by the cost price of trade depending on the type of product traded; also, taking into account the expenses and exchange rate risk. However, the specifications of products that are sold to related parties are exclusive; therefore, there is no other customer available for comparison. The payment term of sales to a related party is OA60-150 days.

Note 5: The purchase is mostly for molds and parts with special specifications from one single supplier. Therefore, there is no other purchase price available for comparison. The payment term for such single supplier is OA60-120 days.

Note 6: The collection (payment) term is OA90-150 days according to the contract signed.

Note 7: It is calculated and collected according to the contract signed.

Note 8: Interest collection and principal repayment are made according to the loan contract signed.

(14) Department information

There are two reporting departments within the Group, including the stamping parts department and the general investment department. The stamping parts department is mainly for the manufacturing and production, processing, and trading of stamping components, while the general investment department is engaged in short-term investment and general investment activities. The reportable departmental profit and loss are measured by operating profit and loss before tax (excluding the total management and logistics costs to be amortized, non-operating income and benefits, non-operating expenses and losses, and income tax expenses) and it is the base for performance evaluation. This measurement amount is provided to the operating decision-maker to determine the allocation of resources to each department and to evaluate the performance of each department. The accounting policies of the operating department are the same as the summary of the significant accounting policies described in Note IV of the consolidated financial report.
